CABLE PREPARATION TOOLS

NEW

# "CT Series" Compression Tools

## Quick. Easy. Accurate.

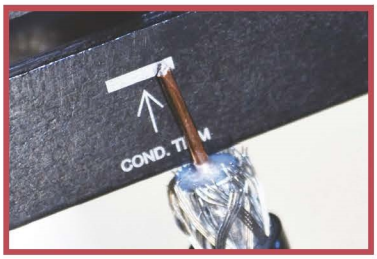
**CTX**
59/6 EX (18mm),
RG7/RG11

**CTU**
59/6 Universal (21mm),
RG7/RG11

**CTC**
59/6 EX (18mm),
59/6 Universal (21mm),
RG7/RG11

Unique pivoting block accommodates proper compression of various connector types.

Low compression force handles with comfortable polymer grips.



Center conductor gauge on tool body designed to ensure proper preparation lengths.

Tool compression lengths are factory fixed and non-adjustable preventing improper adjustments in the field.

## Features

- Overall narrow tool body and head design allows ease of use where space and cable length is limited, such as wall boxes.
- Premium quality construction black oxide hardened steel.
- No need for numerous tools. Simply, choose the tool compatible with the connectors you use most.
- Lightweight design for ease of handling.

| Model | Part # | 59/6 Universal (21mm) | 59/6 EX (18mm) | RG7/RG11 |
|---|---|---|---|---|
| CTX | 43945-1 | | X | X |
| CTU | 43945-2 | X | | X |
| CTC | 43945-3 | X | X | X |
